Mr. W. Eaton Erans, New Orleans: DEAR Str.-In answer to your enquiries how I liked, or what effect your LACKUE FOOTH AND OFM SPECIFIE has had upon my wite, I will say that the offects produced upon the teeth and guins of my wife were astunishing. It not only brought the teeth to a clear and pearly while, but has fully restored her gams to a natural and healthy appearance I often use it myself for cleansing and whitening my teet! and cleaning my mouth, for which I consider it without a

parallel I was also in conversation a few days since with Rev. Mr. Gray, Pastor of the Second Tressyterian Courch in this place. He told me he was using your specific, and previous to which, his gums had become very soft and spongy; especially in the sockets of his teeth; so much so, that it was with difficulty that he could masticate his food, and that it had no use his own works where the like and that it had—to use his own words—acted like magic upon his rums: that they had now become so firm that he upon his sums: that they had now become so firm that he could sat with ease, and that they were rapidly improving and getting firmer daily; that he couldered it a production that rould not be counsiled, and that it could not be too widely made known. It is being thoroughly tested here; but as yet, I have heard of no one who does not speak of

I do herely certify, that about five years ago. I was badly salivated from the use of calomel, and from which time my gums and lips have never born healed, but have from that time been in a sore and ulcerafed condition; at three different times I have had the ulcers on my gums bornit out with caustic, which would relieve them for a short time, but the sores would soon break out again, and the front portion of the gum of my inder law had become so far wasted that I could nearly lay my little finger under the roots of my trell. On the lat November last, I parchased from Mr. Evans one bottle of his Lacrue's tooth and gum specific. To the Public.—I do hereby state that in September last, while on my way to the New England States, I made a short stop in Memphis. Team, and seeing a notice of Mr. Evans' tooth and gum specific, I called on Mr. E. to consult him in regard to my teeth and gums, which was at that time in a most deplorable state of discover, from being salivated some year and a half ago. My lower gum appeared to be one complete canker, or mercurral sore, and in one or two places had actually eaten through my gum, so that I could see the bare hone. Mr. Evans told me he had full confidence that the specific would heal and cure them. I purchased two bottless of the specific, and comthem. I purchased two bottless of the specific, and com-menced using it immediately, and in a few days I could plainly see that I was receiving benefit rapidly, and in less than six weeks the sores were closed and beated, and I might say perfectly cured. My teeth which were also at the time covered with a black rough coating, are now smooth and of a clear clean white; suffice it to say, that I would not be without the specific if the cost was five I men well known in East Florida, and can, when re

turned home, produce more than fity witnesses of the first respectability, who will attent to the above upon exhibiting my mouth to then in its present state. Signed, A. L. MONIER.
